

PowerPoint Assignment #1

Create an 8 slide presentation. Each slide should contain the following

SLIDE 1: "PowerPoint Assignment #1" as title, and your name as subtitle (your name should be smaller than title)

SLIDE 2: A picture of an animal, and the name of the animal below (no animations)

SLIDE 3: A picture of an animal which is 15% transparent with the name of the animal shown. The name should be behind the picture. (To achieve this select the picture and choose "Bring to front".)

SLIDE 4: A picture of an animal, when you click the mouse its name dissolves in. (You will need to add an animation to the textbox with the name)

SLIDE 5: A picture of an animal which disappears and is replaced by the name of the animal when you click the mouse. It should only take one click for both animations to occur.

SLIDE 6: A picture of an animal which rotates 360° counterclockwise when you click the mouse, at the same time the name of the animal should appear. It should only take one click for both animations to occur.

SLIDE 7: A smaller image of an animal which moves across the screen (path animation) when you click the mouse, then AFTER the animal stops the name should appear.

SLIDE 8: A list of the websites each of the images came from.
