

Bi-weekly conferences

Every two weeks we will meet and discuss what you have been working on. You should have some finished products prepared to demonstrate. You will be graded based on the following questions:

1. Have you been using your time effectively to create products or improve your skills?

1 – Needs improvement	2 – Satisfactory	3 – Good	4 – Excellent
No, the majority of time during the last few weeks has been spent on unimportant aspects of your work (ex. choosing the right font) or has not been spent on your work at all (ex. playing games)	Somewhat, most of your time has been spent working on your projects but in an unfocused manner. (ex. hopping between projects constantly) OR Somewhat, you had a few good days where you did a lot of very good work but also had a number of days where you did little work.	Yes, you have been using your time to work on your projects. However, your work is inefficient. You are inadvertently wasting time. (ex. Writing out the same code again and again instead of figuring out how to write an effective loop)	Yes, you have been using your time to work on your projects in an effective manner.

2. What is the quality of the products you have created?

1 – Needs improvement	2 – Satisfactory	3 – Good	4 – Excellent
<p>Very low: Products are rushed and incomplete, and do not show attention to detail.</p> <p>OR</p> <p>Non-existent: No products were produced.</p>	<p>Low: Products are incomplete or basic.</p>	<p>Medium: Products are complete and they show attention to detail.</p>	<p>High: Products are complete and appropriately complex, they show creativity and attention to detail</p>

- NOTE: If products are of low quality or non-existent due to compelling reasons (ex. you have been sick, or you had a good idea which seemed like it should work but for whatever reason didn't despite your efforts) mark can be adjusted. In these situations, it is best to let Mr. Nelson know about your problems as soon as possible.

3. What is the originality of the products you have created?

1 – Needs improvement	2 – Satisfactory	3 – Good	4 – Excellent
<p>Only a minor variation on things you have made before.</p>			<p>Completely different than previous products you have made showing different techniques and skills.</p>
